Opis produktu

Jeep Wrangler JL (2018+) 2.0L Petrol

A high-quality laser cut RIVAL skid plates are made from deep stamped 6mm aluminum, these underbody armor offer both a lightweight and high strength solution for underbody protection. Combined with a no drill installation, it's an easy choice to protect underbody of your vehicle from rocks, logs and scrapes.

Key Features:

- Concealed fitting for minimum damage during off-road driving
- Stiffening and reinforcing ribs provide maximum strength
- Polymer powder coating which is corrosion resistant
- Installed onto OE mounting points. No drilling or modification required
- Does not decrease ground clearance
- Apertures for water and dirt drainage
- Vent and airflow apertures.
